gazebo

Introducing
Gazebo Connect

See Every Kilowatt. Control Every Cost.

Enterprise-grade energy intelligence for industrial and commercial facilities. Revenue-grade interval metering hardware and the Gazebo analytics platform bundled into one predictable monthly subscription. Real-time visibility, without the large upfront costs or complex deployments. Remove every barrier between you and your energy data.

What happens when you can't see your energy data?

Your bills are higher than they should be

You can't prove the savings

Your reporting is unreliable

Clear the way with Gazebo Connect

See Where Your Money Goes.
Pinpoint what's driving cost spikes.

Get Data Clarity.
Generate on-demand compliance and audit-ready reports.

Build Your Business Case.
Calculate savings and ROI to show real results.

Make Savings Sticky.
Build the know-how to make savings persist.

Connect Your Stakeholders.
Unify your energy view into a single source of truth.

Live Data in Days, Not Months

Choose a tier that suits your budget to get your revenue-grade metering hardware and get started immediately upon installation.

What customers say about Gazebo

"It is fantastic. I wish I had something similar for my processes in the plant."

"It has become an integral part of our weekly team meetings."

"Going back to a spreadsheet to track projects would be a big step backwards."

Your Data. Your ROI. Always.

Gazebo Connect guarantees complete data sovereignty. Export, share, and archive your energy data on your terms, always.
